

## **Web Developer**

OBI Creative is looking to add a full-time web developer to our digital team in the Des Moines area. This position plays an important role in creating, migrating and managing new and existing websites and web-based application projects for customers and internal use. The web developer will be responsible for working closely with team leads, creative directors, strategists and UX/UI designers to develop programming code based on creative and marketing strategies.

### **EDUCATION**

Bachelor's degree in computer science or equivalent degree or work experience.

### **EXPERIENCE**

Minimum three years of experience. Background in agency environment or managing multiple websites is preferred.

### **QUALIFICATIONS**

- In-depth knowledge of HTML5, CSS3, Javascript/jQuery, PHP, MySQL and PostgreSQL.
- Experience working with open-source content management systems (including Drupal and Wordpress).
- Knowledge of web development standard practices, cross-browser compatibility, responsive programming, SEO best practices and site performance optimization.
- Strong written and verbal communication skills to clearly communicate technical issues to both technical and non-technical audiences.
- Ability to work and thrive in a fast-paced environment, manage multiple projects, learn rapidly and master diverse web technologies and techniques.
- Experience configuring server services a plus.

### **RESPONSIBILITIES**

- Translate provided designs and wireframes to working web sites/applications using standard HTML/CSS practices.
- Work within existing CMS frameworks as well as custom development.
- Integrate data from various back-end services and databases.
- Regularly update active websites maintained by the agency to ensure sites stay functional as technology changes.
- Conduct testing and bug tracking across multiple platforms/browsers.
- Stay up to date on emerging technologies/industry trends and apply them to projects.
